

Adele

Construction

Base & Arms

Aluminium

Seat & Back

Cold Foam

Origin

Made in New Zealand

Key Features

A light, Scandinavian design character makes the Adele at first appear slight and insubstantial. Beneath the surface this chair benefits from incredibly sturdy construction, and above it the sitting experience is one of faultless support and incredible comfort however. Unlike other chairs in the Puremotion range the headrest of the Adele adjusts not only in a forward and backward motion but also up and down by ten centimetres. The backrest reclines from 90° (seated) to 170° (sleeping position).
