

SleepMaker 

Strauss
PLUSH

Description

Are you often woken at night by the movements of your sleeping partner? This may be due to excess movement within your mattress resulting in partner disturbance. A combination of premium comfort layers and SleepMaker's pocket spring technology works perfectly together so you and your partner can sleep together...alone.

SleepMaker Together Alone® has been specifically designed to conform beautifully to the body whilst minimising disturbance from your sleeping partner.

Specifications

Quilt Panel

- Climatech Material (very breathable material)
- Wool Silk (a natural product that is breathable)
- The quilt panel is supported with Quiltable Latex

Top Panel

- Medium Density Foam

Spring Unit

- 6" Pocket Spring (for superior non partner disturbance & support)

Edge Support

- Firm foam encased 6" pocket spring (to enable full width sleeping with superior edge support)
- The foam box has a specially designed border material to allow complete aeration of your mattress.
