Specifications

Key Features:

- Flexgel which provides a pressure relieving layer with exceptional flexibility and durability like no other bedding component.
- Flexgel's open cell structure increases air flow throughout the mattress, eliminating heat and moisture build up so you can sleep comfortably all night through.
- Individual cells isolate movement, minimising partner disturbance to allow you to get the rest you need.
- ClimaLux's collection of breathable comfort technologies helps to dissipate heat and acts as an effective ventilation system for the ideal bed climate.
- The Conformal Coil 5 Zone support system provides total full body support with individual coils dynamically responding to your body's shape, weight and movement.
- Zoned spring units provide an extra layer of support targeted to the upper and lower body, assisting with spinal alignment.
- Alpaca and Silk fibres regulate body temperature with their natural material qualities, keeping you cool in summer and warm in winter.
- Anti-allergen properties protect against dust mites, mildew and bacteria meaning people with asthma and allergies can breathe a sigh of relief and get a healthier night's sleep.
